

ORION[®]

INSTRUCTION MANUAL

ENGLISH ENG

**CONVECTOR HEATER
MODEL: ORCH-022**

Dear customers! Thank you for purchasing ORION products. Before operation, please read this instruction manual. Save it for future reference.

Panel Convection Heater

Please carefully read the below instruction before using

Special safety regulations:

1. Ensure the power fit to the rating power, the exterior metal must be grounded.
2. Insulating resistance must be checked before first Using. Insulating resistance at least 1M. If long time no using or improper keeping will down the insulation, please dry it to resume using.
3. Do not roast anything on the surface to avoid polluting the surface of heating component which will cause the lifetime of component. Do not scrape the component.
4. Put the Heater upright, smooth. Do not make it inversion or gradient.
5. Keep the Power off when maintaining.
6. The fan heater is not suitable for use outdoors in damp weather, in bathrooms or in other wet or damp environments.
7. Please note that the fan heater can become very hot and should, therefore, be placed at a safe distance from flammable objects such as furniture, curtains and similar.
8. WARNING: In order to avoid overheating, do not cover the fan heater. 
9. The fan heater must not be located immediately below a socket-outlet.
10. Do not connect the fan heater using an on/off timer or other equipment which can automatically switch the device on.
11. The fan heater must not be placed in rooms where flammable liquids or gases are used or stored.
12. If an extension cord is used, it must be as short as possible and always be fully extended.
13. You must not connect other appliances to the same mains socket as the fan heater.
14. Do not use this heater in the immediate surroundings of a bath, a shower or a swimming pool.
15. If the supply cord is damaged, it must be replaced by the manufacturer or its service agent or a similarly qualified person in order to avoid a hazard.
16. This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
17. Children should be supervised to ensure that they do not play with the appliances.

TECHNICAL CHARACTERISTICS

Convector heater ORION ORCH-022
Two power modes: 750W/1500W
LED display
Digital control
Digital setting of room temperature in the range from +16°C to +40°C
Digital timer 24H
Power-saving mode
Protection against overheating
Frost protection "Anti-Frost"
The operation indicator
Cord length: 1.5 m

Rated voltage/frequency: AC230V~50Hz
Rated Power: 1500W
Rated current: 6.5A
Electric shock protection class: I
Humidity protection degree: IPX4
Product size (with wheels): 64x7,5x46cm
Product size (without wheels): 64x7,5x41cm
Box size: 83x12x47,5cm
Net/Gross weight: 4.7kg/5.2kg
Product color: white
Mount: floor/wall
